

A concise executive snapshot of work across corporate innovation, venture ecosystems, and founder support — complemented by technical fluency in AI-enabled tools and rapid prototyping.

### **Innovation Leadership (JLL)**

Built and led a corporate startup innovation program, creating structured engagement pathways between founders and enterprise teams. Guided founders on product readiness, enterprise adoption, pricing strategies, and regulatory alignment. Collaborated with product and engineering teams to review integration feasibility and roadmap alignment.

### **Venture & Accelerator Partnerships**

Managed VC and accelerator relationships across India, Europe, and APAC to strengthen founder engagement. Designed founder engagement programs and co-marketing initiatives. Supported portfolio founders with investor introductions, pitch preparation, and market expansion guidance.

### **Startup Ecosystem Builder**

Advised startups across India and Europe on GTM strategy, partnerships, and cross-border expansion. Built networks with accelerators, corporates, and investors to create deal and pilot opportunities. Operated as the connector between founders, investors, and enterprise stakeholders.

### **Founder Experience (Untapd)**

Founded a mobility startup focused on connected-car solutions and device-to-cloud integrations. Developed patent-pending offline communication technology and led product strategy, GTM, and international expansion efforts.
